CONVERSION ARCHITECTURE • 5-SLIDE SYSTEM

The 5-Step Anatomy of a High-Ticket Authority Carousel

How top 1% consulting founders structure multi-slide assets to trigger 100+ saves, shares, and booked discovery calls.

Slide 1: The Scroll-Stopping Hook (The "Pattern Interrupt")

Attack a widespread industry myth or state a specific contrarian revenue metric. Example: "*Why 90% of B2B outbound emails fail (and the 3-line teardown that booked $42k last month).*"

Slide 2: Agitation & Diagnostic Validation

Articulate the reader's hidden frustration better than they can articulate it themselves. This creates instant emotional rapport and authority.

Slide 3: The Proprietary Mental Model / Framework

Introduce your named solution architecture (e.g., "The 3-Tier Authority Stack"). Give it visual structure using diagrams or matrices.

Slide 4: Tactical Step-by-Step Implementation

Deliver 3 concrete, zero-fluff tactical action items. Readers must feel that this slide alone was worth 10x the time spent reading.

Slide 5: Frictionless Conversion Call-to-Action

Never say "link in bio" vaguely. Give a single, low-friction next step: "*Comment 'SYSTEM' below and I'll DM you the raw Notion template.*"

🎯 **Engagement Multiplier:** Carousels have the highest save-rate on LinkedIn & Instagram because users bookmark them as reference manuals.
